City of Oxnard Sign Programs Map

CITY OF OXNARD CALIFORNIA

Sign Progams

The City of Oxnard utilizes sign programs to establish guidelines that ensure multi-tenant building signage and certain signage designs are compatible and uniform with the architecture and site design while providing the benefits of a coordinated, proportional approach to advertising exposure. Overall, sign programs help to enhance the image of a business and helps meet the aesthetic value of the surrounding location.

Each sign program contains various descriptive information such as; letters of approval, conditions, notes and visual representations. This is used to describe the location, type, size, layout, design, size, color, and letter/font styles of the signs
