

## CANDIDATE STATEMENT

Our City of Oxnard needs a change. I am running for Oxnard City Clerk because I want this office to work better for you. I was born and raised in Oxnard. Currently, I help improve and save lives by providing blood to those in need. I also volunteer time with promoting safe and fun recreation for our youth through baseball little league, youth football, and soccer. I am also involved in adult softball. My professional office and public experience gives me a unique understanding of the help our City needs. We need new ideas and new people who are not tied to the same old interests. Everyone knows that Oxnard definitely needs a change. I come from hard-working family. For three generations my family has been a part of this beautiful City. My wife and I raised four wonderful boys and I want my grandchildren to grow up knowing Oxnard is the place to live in. I have witnessed and experienced how much our city has grown. I can help with the changes and improvements Oxnard needs. I believe to be the best fit for this position that will make things better for our community.
