Oxnard Trail Lighting Replacement

February 1 - 12, 2021 - **Trail will be closed to the public**

OVERVIEW

Phase One of the Oxnard Trail lighting project was initiated to replace deteriorated and vandalized lighting along the walking path, adjacent to the railroad tracks, in the area between the park on Entrada Drive down to the Community Garden.

GOALS

1. Upgrade electrical infrastructure
2. Replace trail lighting for pedestrian and residential safety

SPECIFICATIONS

Venco Electric will be working to install a new electrical pedestal located at the detention basin at the southern end of Briana Circle

MILESTONES

February 1-12, 2021

- Demolition of existing sidewalk to run Southern California Edison (SCE) Conduit at Briana Circle
- Trench from new pedestal location to the Oxnard Trail through the detention basin on Briana Circle and begin to run conduit
- Running of new conduit, inspection of pedestals, demolition of existing poles, and installation of new poles
- SCE approval and energizing of new pedestal
- Irrigation repair and reopening of the Oxnard Trail
