

# WEED ABATEMENT NOTICE

Oxnard Code Compliance would like to remind all property owners within the city that the annual weed abatement of vacant lots and properties is due by **June 1st**. This includes the cutting and removal of all dry weeds, brush, growth and trash.

PROPERTY BEFORE WEED ABATEMENT

Weed abatement consists of removing plants or grasses that pose a fire hazard to occupied or vacant structures and properties. It creates space around buildings and structures and reduces the risk of loss to property and life from fire.

For more information, please call Oxnard Code Compliance at:
