**ADDENDUM NO. 5**

Advanced Metering Infrastructure (AMI) Project (Rebid)  
Specification No. PW 17-32R  
BID DUE DATE: 2:00pm July 29, 2021

TO ALL BIDDERS:

Acknowledge receipt of this addendum by enclosing one signed copy with your bid documents. Failure to do so may subject bidder to disqualification. This addendum forms a part of the Contract Documents as follows:

- A. **Revisions to Bid Sheets.** Bidders are instructed to discard pages B3 through B6 provided with the Contract Documents and replace those pages with the attached Revised B3 through B6.

It is not necessary to include the revised pages with the signed Addendum 5 submitted with the bid documents.

- B. The City has received requests for information (RFI) on this project. The questions and City responses are below:

**Question 1:** Please confirm if you are currently utilizing Sungard, HTE Inc. and Tyler Technologies as your current billing software platforms.

**Response:** Sungard is HTE, also known as Naviline. We currently only use Sungard HTE for billing. The utility billing module with Tyler Technologies will be implemented October 2023 according to the schedule provided by the City's Finance Department.

**Question 2:** Please provide city addresses to complete the required *Prop Study* for the *City of Oxnard* RFP. In reviewing the RFP, it appears a listing was not provided. To provide an accurate *Prop Study*, we will need only the physical street addresses within the city of Oxnard and if there are any other addresses outside the city of Oxnard, we ask that those addresses be identified with the city to which they are located in.

Addendum 5  
Advanced Metering Infrastructure (AMI) Project (Rebid)  
Specification No. PW 17-32R

**Response:** Per the bid documents the area is only tentative and susceptible to change based on scheduling. As of right now, the City wishes to focus on the La Colonia Cast Iron Pipe Replacement Project. The area is Cooper to 3rd (north to south), Harrison to Juanita (west to east). This is subject to change.
