Special Conditions Waiver Application

California state laws require that commercial organizations and multi-family residential properties have recycling and organics collection programs in place. These laws include:

- **AB 341/Mandatory Commercial Recycling (MCR)** requires commercial businesses or organizations that generate four (4) yards of solid waste per week, or multi-family residential properties of five (5) units or more, regardless of the amount of commercial solid waste generated to subscribe to recycling collection services.
- **AB 1826 & SB 1383/Mandatory Organics Recycling (MORe)** is for all entities, regardless of the amount of solid waste generated. All entities are required to subscribe to organics collection services.

Organizations that meet specific criteria can complete this application to obtain a waiver from compliance requirements. Staff will review the application and verify eligibility. Waivers must be recertified every five (5) years. Completed applications, with accompanying photographic support, should be sent to recycle@oxnard.org. **Organizations can only apply for one condition per law.**
