

Michaela Perez

I am Michaela Perez. I am the granddaughter of farmworkers, born and raised in the City of Oxnard, a first-generation college graduate, a lifelong advocate of our community, and I am running to represent Oxnard in the 6th City Council District.

If elected as Oxnard's next City Councilwoman, my key priorities will include prioritizing:

- Community health, wellness, and public safety
- Small businesses
- Affordable housing
- Equitable restoration of city services
- Oxnard's next generation of youth

I received my Bachelor's in Psychology and Master's of Public Health from San Francisco State University. My experience is rooted in advocating for and expanding community-centered initiatives: I have managed workforce development programs that offered skills training for students in STEM fields, supported development of a statewide initiative increasing access to quality jobs, and developed broadband policy initiatives to increase digital access, training, and affordability for low-income families.

I, like you, want Oxnard to continue to be a flourishing city to live, work, and call home for future generations to thrive. It would be an honor to serve the residents of District 6 and the City of Oxnard.

Thank you for your support and your vote.
