

MEASURE F | The “Oxnard Permit Simplicity Act” Program

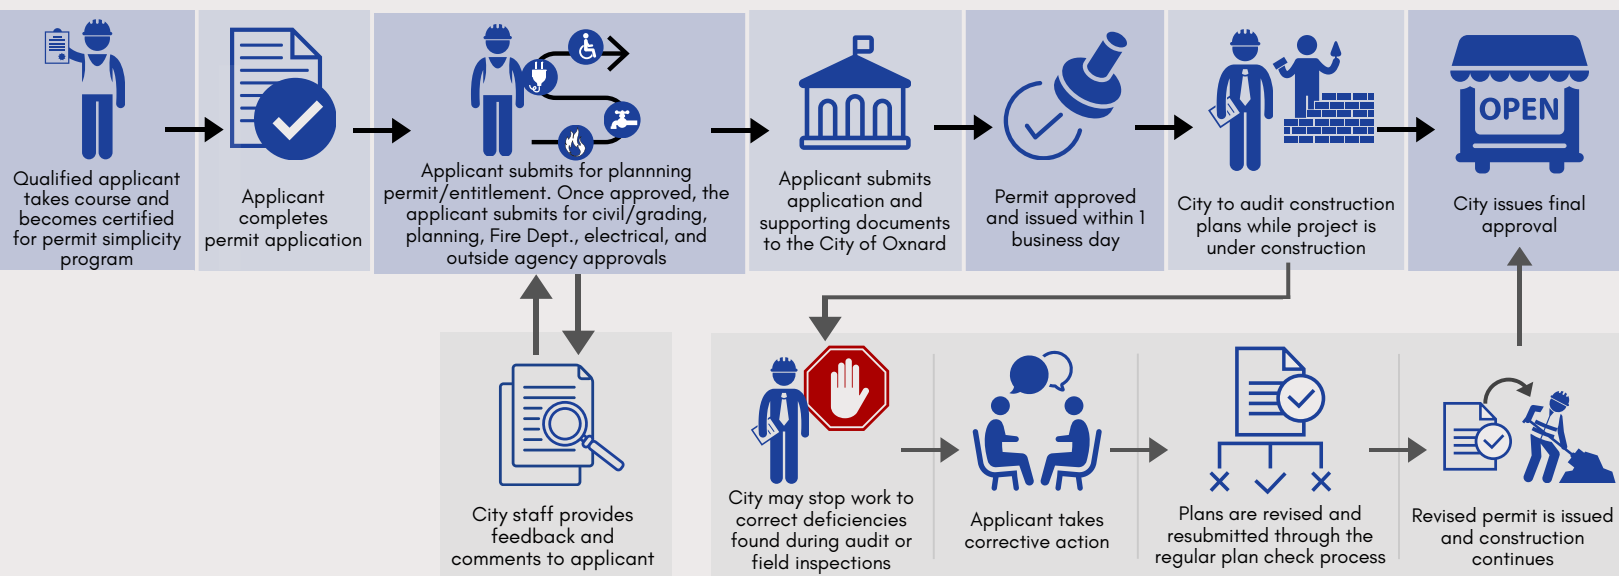

What is Measure F, the “Oxnard Permit Simplicity Act” Program?

Measure F is the result of a voter-approved ballot initiative and is now codified in the Oxnard City Code as Chapter 26. The program allows for the issuance of a permit in one business day if the permit applicant passes a training course and completes all of the eligibility requirements listed below.

Eligibility Requirements

- Project applicants are required to: 1.) Be licensed by the State of California and practicing within their discipline; 2.) Complete "Measure F Training" provided by the City; and 3.) Obtain and show evidence of \$1,000,000 professional liability insurance that will be held for 5 years.
- The project is required to obtain all necessary pre-approvals: Planning Permits/Entitlements (including CEQA compliance); plan check approvals from the Oxnard Fire Department, Planning Department, Electrical Plan Check, and any other necessary outside agencies.
- Grading/Public Improvement plans necessary for the project are required to be fully approved and executed, grading completed, and a pad certification obtained.
- A structural peer review of the project by a 3rd party Structural Engineer selected from an approved list is required.

How does the permit process work through Measure F?

How can I sign up for Measure F certification?

For information on registering for the Measure F Training, please email MeasureF@oxnard.org.
