The following fee schedule is adopted for Building and Engineering plan checking, inspection, permit processing, and other services. As used herein, the word "Code" refers to Chapter 9, Articles I-X of the Code of the City of Oxnard. Hourly fees are based on one Building Inspector's time. When more than one Building Inspector is required, the fee shall be the total hourly cost to the City of Oxnard for each Building Inspector for each hour, or fraction of an hour, involved. Such cost includes employee salaries and benefits, equipment usage, and other operational costs, and administrative overhead. Inspections conducted outside normal business hours will be charged at one and one-half times the hourly rate.

A. Model Code Fees

1. Permit Fees. The fee for each permit shall be as set forth in the attached Tables 1 through 4. The total permit fee for each project shall not be less than an amount equal to ½ hour of an inspection time. The determination of value or valuation shall be made by the Building Official. The value to be used in computing the building permit and building plan review fees shall be the total value of all construction work for which the permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems, and any other permanent equipment.
2. Plan Review Fees.
 - a. Building Plan Review Fee. When a plan or other documents or data are required to be submitted for review by the Building and Engineering Department, a plan review fee shall be paid at the time of submitting plans and specifications for review. The plan review fee for buildings or structures shall be 85 percent of the building permit fee, as shown in Table 1. This fee covers the first three submittals only. For the fourth and each subsequent submittal, an additional amount will be charged hourly, amount noted below.
 - b. Accessibility Plan Review Fee. For projects required to comply with accessibility requirements of the California Building Code an additional plan review fee equal to 20% of the building permit fee shall be charged.
 - c. Electrical, Mechanical and Plumbing Plan Review Fee. A plan review fee for electrical, mechanical, and plumbing submittals for commercial and industrial projects including tenant improvements shall be equal to 60 percent of the total permit fee as set forth in Tables 2, 3, and 4. The plan review fees specified in this resolution are separated from and in addition to the permit fees specified herein.
 - d. Consultant Plan Review Fee. Where consultant or third party review services are utilized by the city, the plan review fees shall be charged at not less than the fee noted above. For any additional review services due to project changes, or special conditions, plan review fees shall be consultant cost plus 30%, but not less than the cost of city staff time required to process the work.
 - e. Special Projects Plan Review Fee. For special projects, where determined to be necessary, plan review shall be deposit based. The total amount of charges shall not be less than the cost of plan review fees as determined above or the total cost of staff with charges at the fully allocated hourly rates for all involved personnel plus any outside costs.

- f. **Additional Plan Review Fee.** Incomplete plans, plan changes, alterations to scope work, engineering time not covered by items or revisions to approved plan so as to require additional plan review shall be charged an additional plan review fee on an hourly basis.
 - g. **Hourly Charges.** The hourly plan review shall be at a rate of \$212.00/hr, with a minimum charge of ½ hr (1/4 hour for revisions.)
 3. **Prototype Plan Fee.** When a single plan is submitted as a prototype for multiple structures in a single tract, the plan check fee for the prototype shall be the full fee as specified in Section 2 above. The plan check fee for succeeding identical structures shall be 50 percent of the plan check fee of the prototype structure. Any deviation from the prototype plan will require a full plan check fee.
 4. **Investigation/Enforcement Fees**
 - a. **Investigation Fee.** Whenever any work for which a permit is required by the Code has been commenced without first obtaining a permit, a special investigation shall be made before a permit may be issued for such work. An investigation fee, in addition to the permit fee, shall be collected whether or not a permit is then or subsequently issued. The investigation fee shall be at a rate shown in Section A2 above for plan check staff time and A14 below for inspection staff time and other associated costs, or equivalent to the amount of the permit fee (whichever is greater), as set forth in Tables 1 through 4. The payment of such investigation fee shall not exempt any person from compliance with all other provisions of the Code and other laws of the City which may apply, or from any penalty prescribed by law.
 - b. **Enforcement Fee.** An enforcement fee shall be required whenever enforced compliance of any violation of the Code requires more than the initial notice to comply. Additional enforcement efforts on the part of City staff, including notification letters, research, inspection time, administrative review, preparation of court documentation, microfilming of plans, copies of correction notices, or court time of Building Inspectors or Code Enforcement Inspectors, will all be calculated based upon the hourly fee rates contained in this resolution. Payment of such enforcement fee shall be made at the time permits are obtained or before further inspections will be made. The payment of such enforcement fee shall not exempt any person from compliance with all other provisions of the Code and other laws of the City which may apply, or from any penalty prescribed by law.
 - c. **Reinspection Fee.** A reinspection fee may be assessed for each reinspection made when a portion of work for which the inspection is called is not complete, or when corrections called for are not made. Reinspection fees may also be assessed when the permit card is not properly posted on the work site, the approved plans are not readily available to the Building Inspector, for failure to provide access on the date for which inspection is requested, or for deviation from plans requiring the approval of the Building Official. To obtain a reinspection, the applicant, upon notification by the Building and Engineering Division, shall pay the reinspection fee in accordance with the hourly rates indicated in Tables 1 through 4. In instances where reinspection fees have been assessed, no additional inspection of the work will be performed until the required fees have been paid.
 5. **Certificate of Occupancy Fee.** No building structure shall be used or occupied, and no change in the existing occupancy classification of a building or structure, or portion thereof, shall be made until an application for a Certificate of Occupancy has been made and an inspection fee is paid to the Building and Engineering Division for a compliance inspection of the building, or portion thereof, and a Certificate of Occupancy is granted by the Building and Engineering Division. The amount of the inspection fee shall be as follows:

This cost includes salaries and benefits of the employees involved, equipment usage and other operational costs, and indirect administrative costs.

7. Imaging Fee. SECTION 2 – DEVELOPMENT IMPACT FEES

I. SEWER CONNECTION FEE (Ordinance No. 2709)

The treatment facility infrastructure fee shall be paid based upon the level of wastewater treatment required as represented by the three treatment elements: flow, biochemical oxygen demand (BOD), and suspended solids (SS). All fees shall be based upon a meter equivalency factor which provides an index to identify the service requirements. A meter equivalency factor of one (1) shall represent the volume of wastewater which would be generated by a single-family residence. Meters which are larger shall have a corresponding equivalency factor to illustrate the volume of wastewater generated as such equivalency factor compares to a single-family dwelling. The following table defines meter equivalency factors for various sized meters:

Meter Size	Meter Equivalency Factor
5/8", 3/4"	1
1"	2
1 1/2"	3
2"	5
3"	11
4"	17
6"	33
8"	53
10"	113
12"	180

A. The Treatment Facility Related Infrastructure Fee

Shall be paid based on the sum of the flow, BOD and SS charges, based upon the following schedule:

1. Flow Charges (Utilizing Equivalency Factors for Water Meter Size)

Volume	Rate
All Users Meter Equivalency Factor	x \$1,627

2. BOD Charges (Utilizing Equivalency Factors for Strength and Meter Size)

	Strength	Rate
Single-family residential	1 x Meter Equivalency Factor	x \$1,235
Non-formula commercial/industrial class users:		
Other	1 x Meter Equivalency Factor	x \$1,235
Commercial Laundry	1.6 x Meter Equivalency Factor	x \$1,235
Restaurants/Food Preparation	2 x Meter Equivalency Factor	x \$1,235
All formula users (Commercial/Industrial)	2 x Meter Equivalency Factor	x \$1,235

3. SS Charges (Utilizing Equivalency Factors for Strength and Meter Size)

	Strength	Rate
Single-family residential	1 x Meter Equivalency Factor	x \$936
Non-formula commercial/industrial class users:		
Other	1.3 x Meter Equivalency Factor	x \$936
Commercial Laundry	1 x Meter Equivalency Factor	x \$936
Restaurants/Food Preparation	3.2 x Meter Equivalency Factor	x \$936
All formula users (Commercial/Industrial)	3.4 x Meter Equivalency Factor	x \$936

B. The Conveyance System Connection Fee

For all connections to the wastewater conveyance system, the fee shall be determined by the size of the water needed to serve the facility, based on a charge of \$1,458 per water meter equivalency factor as indicated in the following schedule:

Water Meter Size	Equivalency Factor
5/8", 3/4"	1
1"	2
1 1/2"	3
2"	5
3"	11
4"	17
6"	33
8"	53
10"	113
12"	180

NOTE: When Developers of new subdivisions or other developments are conditioned by the City to build or install Master Planned Wastewater Conveyance System improvements, the City will provide them full credits towards the Conveyance System Connection Fee. Any excess funds due the Developer will be reimbursed per City of Oxnard Resolution No. 10,272.

Total Sewer Connection Fee (A + B) Based on 3/4" Water Service. For Larger Services, Multiply by Equivalency Factor:

Use	Treatment Fee	Conveyance Fee	Total Fee
Single-family Residence	= \$3,798.00	\$1,458.00	\$5,256.00
Apartment	= \$2,762.18	\$1,060.36	\$3,822.55
Mobile Home	= \$2,186.73	\$839.45	\$3,026.18
Non-formula Commercial/Industrial	= \$4,078.80	\$1,458.00	\$5,536.80
Commercial Laundry	= \$4,539.00	\$1,458.00	\$5,997.00
Restaurants/Food Preparation	= \$7,092.20	\$1,458.00	\$8,550.20
Formula Industrial User	= \$7,279.40	\$1,458.00	\$8,737.40

FOR ALL CONNECTIONS:

1. Oxnard Territory served by Port Hueneme effective 1-17-84.

Residential - \$3,000/D.U.

For Industrial or commercial property, the fee is \$3,500/Acre.

2. Fees for mobile home and apartment developments which can be served by a single meter shall be according to the following formula:

Mobile Homes - $1.9/3.3$ x number of mobile home spaces x basic residential $3/4$ " sewer connection fees (A + B). The regular sewer connection fee applicable to any meter(s) serving common facilities will also be charged (i.e., laundry room, clubhouse, etc.). For calculations the City will use 0.57575758 for the fraction $1.9/3.3$.

Apartments - $2.4/3.3$ x number of apartment units x basic residential $3/4$ " sewer connection fees (A + B). The regular sewer connection fee applicable to any meter(s) serving common facilities will also be charged (i.e., laundry room, clubhouse, etc.). For calculations the City will use 0.72727273 for the fraction $2.4/3.3$.

3. Meter Size Increase

Should an owner or user request any increase in the size of a water meter after the initial connection, an additional sewer and water connection charge shall be made in an amount equal to the difference between the current fee for the existing meter size and the current fee for the requested meter size. The fee shall be paid in advance of the installation of any new meter.

C. Connection Fees Credits (Ordinance No. 2494)

1. If a demolished structure is subsequently replaced, no additional sewer permit or sewer service connection fee is required if the building permit for the replacement structure is issued within five years of the date of destruction of the previous structure.
2. If the building permit is issued more than five years but less than ten years from the date of demolition, the service connection fee shall be reduced by 50%. If the building permit is requested for any replacement after ten years from the date of demolition, the full permit or service connection fee shall be required.

II. **WATER SYSTEM CONNECTION FEE (Ordinance No. 2624)**

A. New, Expanded or Additional Service Connections

All projects requiring new, expanded or additional service connections to the City of Oxnard's water system shall pay to the City the appropriate Capital Facility Charge and Water Resource Development Fee, as provided herein.

B. Calculation of Charge and Fee

The Capital Facility Charge and Water Resource Development Fee shall be paid based on the diameter of the meter installation, which is directly related to the volume of water required for the new, expanded or additional service connection. The fee shall be calculated based on a meter equivalency factor, which provides a standardized index to identify the volumetric service requirements. For expanded service, the payment shall equal the Capital Facility Charge and the Water Resource Development Fee for the expanded service connection, less the original planned water facilities fee paid for the existing connection.

C. Connections

For any new expanded or additional connection to the City water system, except fire line service, the following Capital Facility Charge and Water Resource Development Fee shall be paid in advance of the meter installation. New, expanded or additional connections for fire line service shall not be required to pay either the Capital Facility Charge or the Water Resource Development Fee.

Meter Size (inches)	Equivalency Factor	Capital Facility Charge (dollars)	Water Resource Development Fee (dollars)
¾"	1	\$341	\$2,792
1"	2	\$682	\$5,583
1½"	3	\$1,023	\$8,375

Over 12"	TBD by Water Superintendent	TBD by Water Superintendent	TBD by Water Superintendent

D. Meter Size Increase

Should an existing customer request an increase in the size of a water meter that does not necessitate increasing the diameter of the existing service connection, a Capital Facility Charge and a Water Resource Development Fee shall be paid. The payment shall equal the Capital Facility Charge and the Water Resource Development Fee for the new, larger meter, less the original planned water facilities fee paid at the time of the connection of the existing meter. (Per Community Development Assistant Director’s Memo dated May 15, 2003, the following interpretation is used in the calculation of this fee “When a user requests an increase in the size of a water meter, an additional connection charge will be required in an amount equal to the difference between the current fee for the existing meter size and the current fee for the requested meter.”) This charge and fee shall be paid before the installation of the new, larger meter.

E. Water Service Connections

Each premises shall have a connection. No water service connection shall serve more than one premises. For purposes of water connections, “premises” means any:

1. Detached single-family residence.
